Why should I enroll my child in music classes?

The research about music and children's development is truly stunning. More and more, **the eyes of the research community turn to music as a vehicle to deliver a learning experience to children.**

The bottom line: **early, positive, and age-appropriate experiences with music**—like a Kindermusik program—can have a remarkable and research-proven impact on your child's:

- language and literacy skills (vocabulary, comprehension, listening, expression)
- social and emotional development
- mathematics and pattern-recognition skills
- ability to plan, guide, and self-regulate their behavior.
